Reasons for allowance

1. The following is an examiner's statement of reasons for allowance:
2. Claims 1-24 are allowed.
3. The prior art does not disclose first and second access ports coupled to one or more access switch via first and second redundant network access links; placing the first access port in an active state, while placing the second port in a blocked state; conveying communication traffic over the first link while the first port is in the active state; responsive to a failure associated with the first link, placing the second port in the active state and the first port in the blocking state; sending dummy traffic through the second access port over the second link so as to cause each of the one or more access switches to modify its respective access switch database responsive to the second access port being in the active state.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2144
